

## Premium / Discount

### **Smart money buys in discount and sells in premium, retail does the opposite**

Use premium and discount on dealing ranges, market structure and 1m market structure shifts. Use swing highs and swing lows for this: [Swing Highs and Swing Lows explanation](#)

Also use it for targets, when selling in premium we want to target a FVG/Liquidity/Orderblock in discount. And vice versa, when buying in discount we want to target a FVG/Liquidity/Orderblock in premium.
